

6 Easy Steps for Ordering Transcriptions in Sonocent Audio Notetaker

1

Save money and transcribe specific sections. Just extract highlighted audio into a new project file.

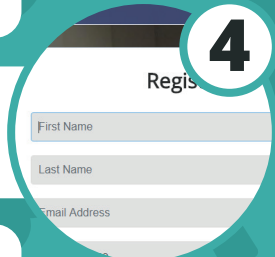

2

In your new transcription project, choose the 'Export' menu and select '**All Audio for Transcription**'.

3

No need to remember the Words To Note web address, **we'll take you there**.

4

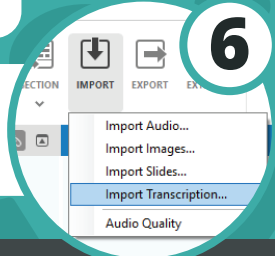

Simply **create an account**, upload your file and get an instant quote. You can then pay by credit card or PayPal.

5

24hr

Sit back and relax - for **24 hours**. Words To Note will let you know when your transcription is ready.

6

Download the file, open your project, and choose '**Import Transcription**' from the Import menu.

Hey presto. You now have a transcription with 95%+ accuracy alongside your recording. Sonocent Audio Notetaker will even **align the text** to the right sections of audio for you!
